

**INFORMATION,
 SEARCH,
 and CAUSES:
 Rational
 and cognitive
 approaches**

9.15 10.15

Da LAGNADO (UCL)

Causal networks in evidential reasoning

10.15 11.00

J a a NELSON (MPI B)

**Late-breaking results in stepwise approaches
 to sequential search**

11.30 12.15

N BRAMLEY (UCL)

**Acting informatively: How people learn causal structure
 through sequences of interventions**

14.00 15.00

Pa PEDERSEN (MPI B)

**Dilation, disintegrations, dominance principles,
 and delayed decisions**

15.00 15.45

La a MARTIGNON (L)

Probabilistic information measures in the classroom

15.45 16.30

F a a FILIMON (H U B)

**Neural substrates of probabilistic perceptual decisions
 based on experienced probabilities vs. descriptive statistics**

17.00 17.45

B MEDER (MPI B)

Information search and presentation formats

17.45 18.30

V CRUPI (T)

**Shannon and beyond: Generalized entropies
 and rational information search**
